***Disclaimer:** Investors should consider carefully the investment objectives, risks, charges and expenses of the fund before investing. The prospectus contains this and other information about the fund. The AUL American Unit Trust prospectus and the underlying fund prospectuses may be accessed at www.eretirement.aul.com or by calling American United Life Insurance Company at 1-800-403-4173.

This is an interest-earning investment option, backed by AUL's general account assets. AUL guarantees that interest will be credited at the higher of the rate guaranteed in the group variable annuity contract and the current rate declared by it. AUL may change the initial interest rate for future contributions. New contributions are guaranteed to earn the applicable initial interest rate for at least a one-year time period from the date the contributions are made. Changes in the initial interest rate or in the interest rate for prior contributions will also be effective for at least one year. In no event will the interest rate ever be below the rate guaranteed in the group variable annuity contract.

§The guarantee is based on the continued claims-paying ability of AUL.

¹ The performance reported includes the mortality and expense risk charge (1.25% on an annualized basis) but does not reflect the deduction of withdrawal charges or a pro rata portion of any administrative charge. Based on the type of contract, administrative fees may range from \$0-\$7.50 per quarter.

The above returns are historical and past performance does not guarantee future results. Current performance may be lower or higher than the performance quoted. The investment return and principal value of the Investment Accounts will fluctuate, so that a participant's units when redeemed may be worth more or less than their original cost.

Any performance reported before AUL first offered an investment option is hypothetical and was calculated by adjusting the underlying fund's performance by current applicable contract charges.

Unit values given in this statement are based on net asset values provided by the funds and are not independently verified by AUL. If AUL receives inaccurate information, the unit value may be affected accordingly. If an error is subsequently discovered by any fund and reported to AUL, a

participant's account will be recalculated to reflect the correct fund value, provided that the error was material under federal securities laws.

Diversification cannot eliminate the risk of investment losses.

² Lesser of 10 years or since inception.

³ An Investment in the OneAmerica Money Market Investment Account is not insured or guaranteed by the Federal Deposit Insurance Corporation or any other government agency. Although the Account seeks to maintain a stable unit value, it is possible to lose money by investing in the Account. The current 7-day yield more closely reflects the current earnings of the OneAmerica Money Market investment option than does the total average annual return. The current 7-day yield reflects a hypothetical charge for an administrative charge based on a \$10,000 average account size.

⁴ There are additional risks associated with international investing, such as currency fluctuations, economic and political factors, etc. not associated with investing exclusively in the U.S.

⁵ The inception date of each Advisor share class portfolio of the OneAmerica Funds, Inc. mutual fund is March 31, 2003. Performance reported prior to this date was calculated by adjusting the underlying fund's performance for any asset-based charge specific to the Advisor share class.

⁶ The inception date of each T. Rowe Price R share class fund is September 30, 2002. Performance reported prior to this date was calculated by adjusting the underlying fund's performance for any asset-based charge specific to the R share class.

⁷ Fidelity or Fidelity Investments and Pyramid Design are registered service marks of FMR company. American United Life Insurance Company ® and Fidelity Investments are not affiliated.

⁸ The performance shown for the AIM Basic Value, AIM Mid-Cap Core Equity and AIM Small Cap Growth funds is performance for the Class R shares of these funds. Class R shares were first offered on June 3, 2002. Returns prior to that date are hypothetical results based on Class A share returns at net asset value, adjusted to reflect additional Class R 12b-1 fees.

⁹ Micro-, Small- and Mid-Cap company stocks are more volatile than large company stocks.

¹⁰ Each of the American Century Strategic Allocation fund's actual asset mix will vary from its neutral mix based on investment performance. Fund managers regularly review the portfolios and will rebalance the asset mix to stay within the fund's preset operating ranges. For the American Century Strategic Allocation: Conservative, Moderate and Aggressive accounts, the risk designations are relative only to the three American Century Strategic Allocation funds and do not represent comparisons with any other investment.

¹¹ The performance shown for the Thornburg funds is performance for the R Class shares of these funds. Returns prior to the R Class inception date are hypothetical results based on A Class share returns at net asset value, adjusted to reflect additional R Class 12b-1 fees.

¹² LifePoints is a registered trademark of Frank Russell Company. Each of the LifePoints® Funds invests its assets in shares of a number of underlying Frank Russell Investment Company Funds. Each of the LifePoints® Funds will adjust its investments within set limits based on Russell's outlook for the economy, financial markets, and relative market valuation of the asset classes represented by each underlying Fund. However, the LifePoints® Funds may deviate from set limits when, in Russell's opinion, it is necessary to do so to pursue each Fund's investment objective. The amounts allocated to each underlying fund will generally vary within 10%.
